Something Every Home Should Own

Think What This Dishwasher Would Have Saved You Yesterday—and Will Save You EVERY DAY

Washes, rinses and dries your dishes in ten minutes. Your hands are kept out of the dishwasher. Dishes CAN'T break.

The operation of the dishwasher is simple. The dishes are arranged in racks, hot water run into the dishwasher and the switch turned on.

The paddle forces the water over the dishes, really cleaning them. This water is then drained off, clean hot water run in, the switch turned on again and the dishes are rinsed. After standing a few minutes, they are dry.

This dishwasher pays for its space by serving also as a fine aluminum topped kitchen table.

ANGELES EXECUTION SHOCKS WASHINGTON

Confirmation of the report that Gen. Felipe Angeles had been executed at Chihuahua on the order of Carranza came as a distinct shock to Washington officials. Gen. Angeles was regarded here as a sincere friend of the United States, and it was thought that Carranza

might show him clemency for this reason. The fact that he did not is taken as another indication of the antagonistic attitude of the Mexican government toward this country.

Had Gen. Angeles been arrested under different circumstances this country might have intervened in his behalf, but his alignment with Villa precluded this possibility.

Officials are of the opinion that the execution of Angeles will provoke another revolution as was the case in the assassination of Madero. The dead rebel had a host of followers and sympathizers in Mexico, and a demand for vengeance is certain to result.
